Description

Antique Goliath pocket watch and chain, circa 1910s. The watch has a nicely jewelled stem-winding movement which is working well. The movement is protected by an inner hinged dust cover. The watch measures 66mm diameter excluding the stem and the loop so it is larger than the standard 50mm pocket watch. The case has light surface marking from use but overall it is in nice condition for a 1910s piece. The watch has a gold inner bezel around the lens. The glass lens is in nice condition. The enamel dial is in nice condition. Blued steel hands (initially pin-set), a subsidiary seconds dial and an outer minute track. The watch comes with a heavy gauge watch chain which measures 35.5cm long including the T-bar and the clasp. The watch will be sent in a new presentation box.
