Description

Gents 9ct gold Precimax wrist watch, 1965. The watch has a 17-jewel Swiss hand-winding movement which is working nicely. The watch measures 32mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for Edinburgh 1965, together with a case maker's mark for the British Watch Case Company. The case is in good condition, just a mild indentation to the back of the watch but nothing too serious at all. The lens is in good condition. The signed dial is in its original finish with original dauphine hands and centre seconds sweep. A later leather strap has been fitted. The watch will be sent in a new presentation box.
