Description

Antique Waltham full hunter pocket watch, 1912. The watch has a 15 jewel stem-winding movement, grade 620 which is working well. The fully signed movement has the serial number 18619731 which dates it back to 1912. The movement is protected by an inner hinged cover. The watch measures 50.3mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model made by the Dennison Watch Case Company. The case has light surface marking from use but overall it is in nice condition for a 1912 piece. The winding crown pushes in to release the front cover. Inside there is an acrylic lens in nice condition. The white enamel dial has a couple of very faint hairline cracks between the bottom and sub seconds dial although only noticeable with a jewellers loupe but otherwise it is in nice condition. The watch will be sent in a new presentation box.
