

SA655504

Gents 1950s Avia Dayter wrist watch

Price

Sold**Item Reference: SA655504****Date of manufacture: 1950**

Description

Gents 1950s Avia Dayter wrist watch. The watch has a 17-jewel Swiss automatic movement which is working nicely. The watch measures 35mm diameter excluding the winding crown and the lugs so a good wearable size. The case is gold plated and it is in good condition. The lens is in good condition and it has the magnification window over the date display (from the photos, it appears that the date is misaligned but this is just the angle that the photos were taken from, the date is in the correct place in real life). The signed dial is in good condition with original dauphine shaped hands, date display (this is changed by pressing the small button to the side of the case, next to number 8). There is also the added feature of a day display just above 6 o'clock, initially set by winding the hands forwards. A new leather strap has been fitted. The watch will come in a new presentation box.
