Description

1920s Swiss pocket watch and chain. The watch has a Swiss stem-winding movement which is working well. The movement is stamped 13 jewels, Swiss made. The watch itself measures 55.3mm diameter excluding the winding stem and the loop. The case is nickel and has light surface marking from use but overall it is in nice condition for a 1920s piece. The watch has a screw on front and back. The watch has an acrylic lens which is in nice condition. The white enamelled dial has a faint hairline crack to the sub seconds dial at 5 o'clock although hardly noticeable to the naked eye. The watch has its original blued steel hands. The watch comes with a single albert chain which measures 29.5cm long including the T bar and clasp. The watch and chain will be sent in a new presentation box.
