

SA657261

1930s half hunter pocket watch and chain

Price

Sold**Item Reference: SA657261****Date of manufacture: 1930**

Description

1930s half hunter pocket watch and chain. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Dennison Watch Case Company, a British company who many cases for many of the watch manufacturers of the time. The case is in very nice condition. The front cover has a central lens surrounded by enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in good condition. The dial is in lovely condition and has blued steel hands, including the half hunter hour hand so the time can be read when the front cover is closed. The watch comes with a single chain, 30cm long including the T-bar and the clasp. There is also a shorter chain attached which has a swivel containing stones, probably carnelian and bloodstone. The watch and chain will be sent in a new presentation box.
