Date of manufacture: 1920

Dimensions

Height = 108 cm (42.5")

Width = 56 cm (22.0")

Depth = 44 cm (17.3")

Description

windsor chairs may not be the rarest type in the world but it is not common to find a pair, particularly the high back style. These chairs dating we suspect from between 1880 and 1920 are in nice tidy and clean condition. They have a rather nice shape to the seat and a good shaped splat in the high backs. These chairs sit on a turned leg with a pair of shaped stretchers for support between these legs. They have a pleasing mellow colour to the timbers, ash and other woods, and are very keenly priced. We could not find anything else available in this style and in this condition at a similar price. We can arrange delivery with specialist carrier to most areas for around £60/70. give us a call if you would like to discuss 01565 874075 Seat height is 44cms as is the depth. Declared width is on the outer edge of the arm.
