Description

Antique 1908 Waltham pocket watch. The watch has a 17 jewel stem-winding movement, grade 625, which is working nicely. The handsomely patterned movement is fully signed and the serial number 16923282 which dates it back to 1908. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the crown. The case is 14 ct gold filled and is the Sun model made by the Dennison Watch Case Company who made the majority of the cases for Waltham UK. The case has light marking from use but overall it is in nice condition for a 1908 piece. The acrylic lens is in nice condition. The signed white enamel double sunk dial has a very faint hairline crack below the sub seconds dial but otherwise it is in nice condition. The watch has its original gold hands and blued steel sub seconds hand. The watch will be sent in a new presentation box.
