

SA658197

1922 Waltham pocket watch

Price

Sold**Item Reference: SA658197****Date of manufacture: 1920**

Description

1922 Waltham pocket watch. The watch has a stem-winding movement which is working nicely. This is a good quality patterned movement with a Church patent regulator, invented by Duane H Church and patented in 1892. The movement is fully signed and the serial number dates it back to 1922. The watch measures 44mm diameter excluding the winding stem and the loop. The case is gold filled and it is in very nice condition. The screw-on case back has a sunburst effect, together with a small initially cartouche. The watch glass is in good condition. The signed dial is in lovely original condition and has Breguet style blued steel hands, a subsidiary seconds dial and outer minute markers. The watch will be sent in a new presentation box.
