Description

1920s Greenwich Lever silver pocket watch, Watts Derby. The watch has a key-wound movement which is working nicely. A winding key is included. The movement is protected by an inner fitted cover also with an inner hinged cover. The watch itself measures 50.7mm diameter excluding the stem and the loop. The case is silver and there are London import marks for 1927 with the importers mark for William Henry Sparrow inside both of the case backs. The case is in good condition and the engine turned detail is still nice and crisp. The inner case back has light surface marking from use. The watch glass is in good condition. The white enamel dial is signed Improved Greenwich Lever, W.E.Watts & Co Derby... the original retailer of the watch. The dial has a couple of very faint hairline cracks but other than that, it is in good condition. The watch has its original gold coloured hands. The watch will be sent in a new presentation box.
