

SA658987

Antique Swiss silver pocket watch.

Price

Sold

Item Reference: SA658987

Date of manufacture: 1910

Description

Antique Swiss silver pocket watch. The watch has a Swiss stem-winding pin set movement, which is working well. The movement is protected by an inner hinged cover. The watch itself measures 51.2mm diameter excluding the winding crown and the stem. The case is silver and there are Swiss .935 silver marks inside the two case backs. The case has light surface marking from use and a "ding" to the outer edge but overall it is in nice condition for a 1910s piece. The watch glass is in nice condition with only minor marking from use. The white enamel dial has a very faint hairline crack between 12 & 2 o'clock but otherwise it is in nice condition. The watch has its original blued steel hands which are initially set by a pin set mechanism. The watch will come in a new presentation box.
