Description

The watch has a nice quality Swiss, stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50.2mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model made by the Dennison Watch Case Company. The case has light surface marks from use and a small "ding" to the back cover but overall it is in nice condition. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in nice condition. The white enamel dial is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
