Description

Superb bank of pine drawers dating from the early 20th Century. There are 24 drawers in total, arranged in 4 rows of 6 drawers, and each drawer has a turned wooden knob. A couple of drawers are divided inside but most are empty. Nice small narrow proportions, probably originally used in a shop or workshop. They are in good condition and have been cleaned and lightly waxed to retain their authentic aged look. The inside of the drawers are generally clean and tidy and they all open and close smoothly. There are a few small knocks and scuffs and minor splits as to be expected with age but nothing detrimental. A strip of wood on the back has been replaced at some point. The best description comes from the photos so please look at them all carefully and if you have any questions please ask. Nationwide delivery available, please get in touch for an accurate quote.
