Description

We are very selective about the pedestal desks we purchase and restore for future clients, so we were pleased to be offered this Mid 19th Century mahogany example, as it has many desirable qualities - such as excellent condition & proportions, originality and attractive colour. Now, after some sensitive restoration, the surface has a lustrous depth of tone, the original locks have been serviced and key supplied, the original turned mahogany knobs have been carefully French polished and waxed, the newly laid burgundy leather is now expertly decorated with gold leaf tooling. This desk stands at a comfortable working height and its polished reverse allows for it to be centrally placed within the room, if so desired.
