Description

Mid-size 9ct gold Majex wrist watch, 1930. The watch has a 17-jewel hand-winding movement which is working nicely. The watch measures 30mm diameter excluding the winding crown and the lugs so although originally designed as a man's watch, it is really a mid-size piece. The case is 9 carat gold and there are hallmarks inside the hinged case back for Glasgow (import mark), 1930. The case is in good condition and the coin edge is a charming feature. The lens is in good condition. The signed dial is in its original finish. One of the hands is a later replacement but still a period hand. A new leather strap has been fitted. The watch comes in a Majex presentation box although it doesn't sit as it would have originally because the strap is longer.
