Description

Fully serviced with a 12 month warranty. Pre Moon Omega speedmaster Professional calibre 321 reference 145.012 1967. This is one of the finest and most original examples we have ever seen of this iconic Apollo specification Omega Speedmaster. Powered by the legendary calibre 321 movement considered by watchmakers and collectors as one of the finest chronographs ever made. The movement has just been professionally serviced and comes with a 2 year warranty. Its currently running within plus or minus 3 seconds per day and the amplitude is over 280 degrees, well inside original Omega specification. All functions work correctly and set and reset is crisp and precise. The stepped dial is completely original and untouched, it has the most gorgeous mustard yellow aged lume. The lume on the hands has also aged to the same beautiful tone. The large seconds hand is the rare teardrop end design, this would have been one of the last speedmasters to be fitted with this hand. The Bezel is the original dot over 90 and is near mint perfect, without doubt the best we have ever seen. The glass is the original hexalite and has a few minor marks and scratches. One of the pushers...

Internal Ref: OMEGA SPEEDMASTER
