

SA663129

1960s Eurastyle pocket watch

Price

Sold**Item Reference: SA663129****Date of manufacture: 1960**

Description

1960s Eurastyle pocket watch. The watch has a 15-jewel Swiss stem-winding movement which is working nicely. The watch measures 47mm diameter excluding the winding crown and the loop. The case is gold plated and has an Art Deco inspired designed to the hinged case back. There are a few little "dings" / unevenness to the back. The lens is in good condition. The dial is signed with the Eurastyle name. It is unknown who registered the Eurastyle brand name but they bought in movements, in this case a Unitas movement, to be cased and prepared for onward wholesale. They also produced clocks, sometimes using Junghans movements. The dial is in lovely original condition with original hands, a subsidiary seconds dial and outer minute markers. The watch will be sent in a new presentation box.
