Description

Antique 1920s Swiss full hunter pocket watch and chain. The watch has a good quality 16 jewel stem-winding movement with jewelled pallets and micro regulator, which is working well. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated. It has light surface marking from use and a couple of mild bruises but overall it is in nice condition for a 1920s piece. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in nice condition. The dial has a very faint hairline crack at 3 o'clock although hardly visible to the naked eye. Original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 31cm long including the T-bar and the clasp, and also a cross shaped pendant.
