Antique silver pocket watch and chain

Price

Sold**Item Reference: SA664602****Date of manufacture: 1910**

Description

Antique silver pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case is silver and there are Continental hallmarks inside the two case backs. The case back has engine turned detail which is still nice and sharp. There are some minor marks to the case but nothing too serious. The acrylic lens is in good condition. The dial is in lovely condition and has pin-set blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a silver double albert, with each chain measuring 23cm long including the T-bar and the clasp. Each of the links has the silver lion mark. The watch and chain will be sent in a new presentation box.
