Description

A very nicely detailed Antique corner cupboard, the stepped cornice with egg and dart moulding and corner spandrels, the open top with shaped shelves flanked by fluted pilasters, the base fitted with a pair of panel moulded cupboard doors enclosing a shelved interior and raised on bracket feet. The cupboard is in Georgian style but more likely to date from the late 19th century, the paint with a craquelure finish and gold lined borders is not original but is of considerable age, perhaps dating from the 1950's or 1960's.
