Description

Antique Juvenia silver pocket watch and chain. The watch has a stem-winding movement, signed Juvenia, which is working nicely. The watch measures 42mm diameter so smaller than a standard pocket watch which is around 50mm. The case is 900 silver and there are Continental hallmarks inside the case back. The case has nice crisp engine turned detail to the hinged case back. Overall the condition is good, just minor marking. The watch glass is in good condition. The signed dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single white metal chain, 27cm long including the T-bar and the clasp. The watch and chain come in a vintage presentation box.
