Description

Antique silver Improved Patent fusee pocket watch, 1891. The watch has a key-wound fusee (chain driven) movement which is working nicely (within 5 minutes over a 24 hour period). The movement is protected by an inner fitted cover. (A winding key is included) The watch measures 53.6mm diameter excluding the stem and the loop. The case is silver and there are hallmarks in both of the case backs for London 1891 with the case makers mark for Albert Curtis case maker, Cope Street, Coventry . The case is in good condition with just the odd minor mark. The watch glass is in nice condition with only minor marking from use. The signed dial is in nice condition and has gold coloured hands and a blued steel sub seconds hand. The watch will be sent in a new presentation box.
