Description

1889 silver fusee pocket watch, Burnett Durham. The watch has a fusee (chain driven) movement which is working nicely. The movement is signed J R Burnett, Durham. It is protected by a fitted inner cover. The watch measures 51.3mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Chester 1889, and the case makers mark for Charles Harris, Norfolk Street, Coventry. The case has a few minor marks and mild bruises but overall the condition is very acceptable for such an early piece. The watch glass is in nice condition. The enamel dial several very faint hairline cracks to the bottom but otherwise it is in nice condition. The watch has its original gold hands and blued steel sub seconds hand. The watch will be sent in a new presentation box.
