Description

Early 1940s Omega military pocket watch with leather albert. The watch has a stem-winding movement which is working nicely. The movement is fully signed and the serial number 9,910,913 dates it back to the early 1940s. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and the case back has the GSTP military mark together with the military arrow, or pheon. The inside of the case back is signed with the triangular Omega logo. The watch glass is in good condition. The signed dial has a faint hairline crack running from the centre but it is difficult to see with the naked eye. The watch comes on a 'new old stock' leather albert. The watch and albert will be sent in a new presentation box.
