Description

1930s Rone 15 pocket watch and chain. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition, as is the acrylic lens. The signed white enamelled dial looks good to the naked eye. If viewed through a magnifying loupe, or at certain angles, there are a few hairline cracks radiating from number 9. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 27cm long including the clasps. The watch and chain will be sent in a new presentation box.
