Description

A good example of an antique Windsor chair dating from the mid 19th century. It has a solid elm seat with a low hooped back enclosing tapering spindles and a pierced back splat. It stands on turned legs joined by a crinoline stretcher. There are remains of the original stained finish which have worn in the places most used and the seat and arms have mellowed to an attractive colour. The chair stands approximately 35" (89cm) high, the seat is 15 1/2" (39cm) deep and 17" (43cm) high. Arm to arm the chair is 23 1/2" (60cm) wide. It is in excellent original condition and is strong and sturdy with no signs of worm or any major damages. There are signs of age and use and some marks and light scratches on the seat and around the legs but nothing detrimental. It has developed a wonderful rich patina and has been gently cleaned and polished and is ready for use.
