Description

Gents 1950s Zodiac Datographic wrist watch. The watch has an automatic movement, the Zodiac 1361, which is working nicely. The rotor has been replaced at some stage and has another watch company's name on. The watch measures 33.5mm diameter excluding the winding crown and the lugs. The case is gold plated and is in good condition for a 1950s piece with just the odd mark. The stainless steel case back is signed on both the inside and the outside with the Zodiac name. The case back also states that the watch is waterproof but, as with any vintage watch, it should be kept away from water. There is some scratching to the back. The lens is in good condition. The signed dial is in good condition with original hands, centre seconds and date display. A new leather strap has been fitted. The watch will be sent in a vintage Zodiac presentation box together with outer card box.
