Description

These pine chests have been in an English country house for almost 150 years, a great find! One chest has four graduating drawers with twin gothic panels, the other has three graduating drawers, both have super chunky sycamore tops, original brass handles and stand on turned feet. Dating from the mid to late 19th Century, the frames are sound but as seen in the photographs they are in need of some TLC to restore them to their full potential as practical and decorative pieces for a 21st Century interior. c. 1870 Larger chest: Width: 42" (108cm) Depth: 21" (53cm) Height: 31.5" (80cm) Height to top of backboard: 35.5" (90cm) Smaller chest: Width: 22.5" (57cm) Depth: 21" (53cm) Height: 31.5" (79cm) Height to top of backboard: 35.5" (90cm)
