Depth = 36 cm (14.2")

Description

An excellent early Victorian copper two gallon harvest measure with HR lead excise seal. This well shaped measure has an elegantly curved handle and sits on a flared, folded rim. There are a few minor imperfections as you might imagine for a much used Victorian piece, but the overall condition is very good with a strong sound base. A very attractive copper measure with a multitude of decorative uses. c.1840 Height: 14.25" (36cm) Width: 14.25" (36cm)

Internal Ref: HMC1970
