Description

This most useful oak book case is in very tidy condition from the first half of the last century. Boasting a nice shape it holds a good number of books for its size and has the added appeal of the attractive moulding around the top edge and shelf fronts. The graining is good in the timbers as one of the photographs shows. A super item for office, study or bedroom use. Will not break the bank and it would be hard to find a better condition one for the money.
