

SA671810

1930s Swiss pocket watch and chain

Price

Sold**Item Reference: SA671810****Date of manufacture: 1930**

Description

1930s Swiss pocket watch and chain. The watch has a 15-jewel stem-winding movement which is working nicely. The watch measures 51mm diameter excluding the winding stem and the loop. It has a good quality gold filled case with screw-on bezel and case back. There are a few short scratches and some rubbing to the plate on the bottom of the watch but other than that, the case is in good condition. The acrylic lens is in good condition. The dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There is a hairline crack running upwards from the centre towards number 12. The watch comes on a single albert, 27cm long including the clasps. The watch and chain will be sent in a new presentation box.
