Description

Gents 9ct gold Longines wrist watch, 1968. The watch has a good quality hand-winding movement which is working nicely. The movement is fully signed and the serial number 13,411,097 dates it back to 1966. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for London 1967, together with the name Baume, the importers and UK agents for Longines watches. The back of the watch has a long service inscription from BP. The front of the case is in good condition, as is the lens. The case back has little 'dings' across it. The winding crown is a later plain replacement. The signed dial is in its original finish and it is in good condition. A new leather strap has been fitted. The watch will be sent in a new presentation box.
