Description

1950s mid-size Smiths De Luxe wrist watch, made in England. The watch has a 15-jewel hand-winding movement which is working nicely. The watch measures 28mm diameter excluding the winding crown and the lugs so it would suit a slimmer wrist watch. The case is plated and there are signs of wear commensurate with the watch's age. The case back is stainless steel. The lens is in good condition. The signed dial is in its original with original hands and a sunken subsidiary seconds dial. A new leather strap has been fitted. The watch comes in a Smiths De Luxe presentation box.
