Description

Good late Georgian sampler of great detail nicely framed with a card mount. The more you look at the sampler the more you can see, flowers, trees, animals, people etc. The first band at the top is either in Latin or Roman numerals or a combination of both which probably contains the date but I am not clever enough to work it out. The sampler has been done in lovely mellow colours. There is no damage that I can see. SIZE; Frame size is 24" square CIRCA; 1820- 1830
