Description

A very good quality and unusual French mid c19th mahogany "gueridon" centre table with brass mounts and lions paw feet on a raised platform base. I have literally only just had this arrive, so I will be updating the photographs once I have polished the base. The condition is very good with just some light touching up required to the base only and a good polish. The original marble top is in good condition. The apron of the table top has a full band of tooled brass and there are further brass mounts to the pedestal base too. Great piece of furniture, decorative and an unusual model. Measuring: 28 3/4" or 73cm high 32" or 81cm diameter 25 1/2" or 65.5cm from the floor to the underside
