Description

Antique 1908 Waltham full hunter pocket watch. The watch has a stem-winding movement, grade 610, which is working nicely. The nicely patterned movement is fully signed and the serial number 17,216,130 dates it back to 1908. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Meteor model by the Dennison Watch Case Company, the company made the majority of cases for Waltham UK. The front of the case has the original owner's initials in a beautifully ornate script. There is a thin 1cm indentation to the back but other than that the case is in lovely condition. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in lovely condition. The signed dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
