Description

Currently presented in an unrestored state with some minor work required to the bottom door. This will be carried out once purchased. The movement has been recently overhauled and serviced - guaranteed for 3 years. An excellent drop dial wall clock by this famous Clockmaking family. The high quality 8 day duration single fusee chain driven movement with anchor escapement, rectangular plates and a long pendulum with steel rod. The 12" diameter silvered brass dial with Roman chapters and blued steel hands. The dial signed Dutton & Co, London and with Queen Victoria's Royal Cypher consisting of a crown and the initials VR, standing for Victoria Regina. Also with the date of manufacture, 1871. The mahogany case with a glazed convex cast brass bezel with silvered brass sight ring and mahogany surround. The drop dial case with figured mahogany veneer to the front elevation and further well figured mahogany veneer to the underside with a lockable access door. Also with two access doors to the side to allow for pendulum hanging and adjustments. Note: Robert William Dutton was the Great Grandson of William Dutton who served his apprenticeship under the great George Grah...
