Description

Antique Swedish Biedermeier satin birch secretaire with a stunning interior & full of character. I would date this piece to around the 1850's period & it's in good original condition, with some of age related markings which we have shown in the images & it has just been French polished. The secretaire interior is magnificent, with many internal drawers, two compartments & a central cupboard. There's a long drawer above & three more drawers below, that are graduated in depth. All the drawers have fine dovetails & locks, which we have a key for. The grain figuring of the satin birch & the colour is really nice & typical of this wood used in Sweden.
