Description

Antique Criterion full hunter pocket watch. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is signed Criterion, a brand name registered by various watch makers and importers but this one is believed to be from Achille Hirsch of La Chaux-de-Fonds, Switzerland, who registered the name in 1897. The movement is protected by an inner hinged cover which has a small "ding" and a little scratching. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by Aaron Dennison, a prolific English watch case manufacturer who produced cases for various watch makers. The case has three minor "dings" to the back and a little rubbing but overall good condition for its age. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in good condition. The enamel dial looks good to the naked eye... through a jeweller's loupe, you can see a short faint hairline between 4 and 5. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
