Description

1920s Swiss pocket watch by Armand Jeanneret. The watch has a good quality Swiss 17-jewel stem-winding movement which is working well. The movement is believed to be from Armand Jeanneret. Along with Moeri, Jeanneret established the Moeris brand in 1883 and indeed we have seen this same movement in Moeris pocket watches. The movement is stamped LP&A, possibly the original retailer of the watch. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model made by the Dennison Watch Case Company, a prolific producer of cases for various watch manufacturers. The case has light surface marking from use and light wear to the edge of the back but overall it is in nice condition for a 1920s piece. The acrylic lens is in nice condition as is the white enamel dial with original hands. The watch will be sent in a new presentation box.
