Description

Superb condition, professionally serviced with a 12 month warranty. This is an outstanding example of a vintage mens chronograph made by the premium Swiss maker Omega. This is the rare 1966 Seamaster three register chronograph with the legendary calibre 321 movement, the same movement that was used in the Gemini and Apollo Astronaut watches. The movement is considered to be the best chronograph movement ever produced. The Model Reference is 145.006 Everything about this watch is just beautiful and understated, it has the rare silver dial which is original, it has not been restored or retouched in any way. The case has been ultrasonically cleaned and polished. The Omega symbol is on the crown and it is fully marked Omega on the dial, movement and case as you would expect. The movement has been professionally serviced and a new glass has been fitted all of the functions work perfectly and it keeps excellent time. The watch case measures 38.5mm in diameter not including the crown or the pusher buttons and 41.5 with the crown. This is one of the most desirable vintage chronographs and it comes with both its inner and outer boxes. Omega are one of the most exclu...
