Description

Antique Buren gold filled pocket watch. The watch has a 15-jewel stem-winding movement which is working nicely. The movement, with Geneva stripe detail, has been identified as a Buren. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and it is in beautiful condition with crisp engine turned detail to the hinged case back. The watch glass has a few marks but not too detrimental at all. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute track. The watch will be sent in a new presentation box.
