Description

A rare pair of oversized Cornucopia, larger than most and a real show stopper. Probably German in origin, they are marked on the base with a star or daisy mark which I am not familiar with and also E P for Electro-Plated. Dating to c.1900, they remain in superb condition spanning 15", the base having a diameter of 5 1/4" and standing 16 1/2" tall.
