Description

1930s full hunter pocket watch from the Roa Watch Company. The watch has a stem-winding movement, a Phenix 786, which is working nicely. The movement is protected by an inner cover which has some scratching and discolouration. The watch measures 50mm diameter excluding the winding stem and the loop. The case is rose gold plated and is in good condition, just light surface marks but nothing serious at all. The small button on top of the winding stem pushes in to open the front cover. Inside there is an acrylic lens which is in good condition. The dial is signed Roa Watch Company and it is in good original condition with original hands, a subsidiary seconds dial and outer minute markers. The watch will come in a new presentation box.
