Description

This is a rather special Victorian Claret Jug, perfect for Water too. Each panel is concave with a "dimple" all four sides. The panels are hand-cut and diagonal sections copper-wheel engraved with Aesthetic movement floral and foliate panels, all four sides are different. The hinged lid, collar and handle are silver plated and surprisingly unmarked as the quality of this piece is exceptional. It wasn't until I photographed the piece that I found an engraved English registration number on the underside, again a sign of unique quality; the registration number allows us to date the piece accurately to 1886. A fine and unusual piece for the bar or dining table in excellent condition. The glass measures 4 1/2" x 4 1/2" ; spanning 6" handle to spout and standing 8 1/2" tall to top of lid finial. Excellent condition. FREE Worldwide Registered Airmail Directly From London, England ITEM ID 41890
