Description

As useful as beautiful, this magnifying glass has an English sterling silver handle decorated to the front with a guilloche enamel panel in an unusual white colour. Surrounding the enamel is a delicate beading making the handle "glitter" slightly in light. The silver ferrule is where the hallmark can be found for Sheffield 1910. The nickel rimmed magnifier is of course new, so perfect for use, undamaged with a clear and good magnification. Excellent condition, measuring 7 1/2" long with a glass diameter of 3".
