Depth = 25 cm (9.8")

Description

A rare Guernsey Georgian longcase clock of smaller proportions. A mahogany case with an arched hood pediment with dentil cornice mouldings. Corinthian capped fluted hood side columns and side glass hood apertures. An arched trunk door and a moulded plinth panel. A very well engraved silvered dial with strike/silent to the arch. Blued steel hands with date and seconds. An 8-day duration mechanism of London quality with 5 pillars striking the hours on a bell. Brass cased weights and flat rod pendulum of London quality. Channel Island clocks are seldom seen and Guernsey examples less so. This example by John Williams is circa 1780-90. Height 6ft 7"/201cms Width (at widest point of hood) 19/38 cms Depth 9"/25 cms From Kembery Antique Clocks Ltd. you can expect a genuine antique longcase clock that is in full working condition and sold with 12 months guarantee. We offer to personally deliver and set up the clock in your home. Please contact us for delivery information.
