Description

WW1 era silver trench watch. The watch has a Swiss hand-winding movement, identified as an A Schild piece, which is working nicely. The watch measures 33mm diameter excluding the onion winding crown and the fixed wire lugs. The case is silver and there are hallmarks inside the hinged case back for London 1915. The case is in good condition for such an early piece, a little unevenness to the back but nothing too serious. The lens is in good condition. The black dial has two chips to the edge but these are mostly covered by the hinged bezel. A new leather strap has been fitted. The watch comes in a new presentation box.
