Date of manufacture: 1940

Description

Gents 1940s Ery wrist watch. The watch has a Swiss 15-jewel hand-winding movement which is working nicely. The watch measures 32.5mm diameter excluding the winding crown and the lugs. The case has a chrome plated bezel, an alloy centre and a stainless steel back, a combination often seen post World War 2. The lens is in good condition. The dial is signed with the name Ery, a name registered by Hauser & Fils of La Chaux-de-Fonds, Switzerland in 1922. The dial is in its original finish with original hands, second sweep and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
