Description

Antique Doxa goliath pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner inspection lens and also a hinged cover. The watch measures 65mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition, just a slight indentation to the edge of the case back. The watch glass is in good condition. The dial is in lovely condition and has pin-set blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 29cm long. The links are larger than usual which means that it sits nicely with the watch. The watch and chain will come in a new presentation box.
